

Suzuki Method of Talent Education

Dr. Shinichi Suzuki's method of nurturing the whole individual through developing musical talent has been helping grow individuals and families worldwide for over 50 years. Many great musical artists have their roots in his method. The Conservatory of Music at Hudson Montessori School is proud to be home to a thriving program of young musicians learning violin, viola, cello and guitar. Students and families learn together from highly trained and passionate faculty and participate in individual and group lessons, music theory classes, and multiple performance opportunities.

An overview of Suzuki's method can be found on the Suzuki Association of America's website: <https://suzukiassociation.org/about/suzuki-method/>
